Tonight’s Agenda

• Natural Resource Damage Assessment (NRDA) and Florida Trustee Implementation Group (FL TIG)

• Restoration Phase V background

• Proposed Phase V.3 Restoration Plan

• Public Comment
What is NRDA?

- A legal process based in the Oil Pollution Act (OPA)
- Allows Natural Resource Trustees to assess resource injuries and service losses caused by an oil spill
- Process to determine how best to compensate the public through on-the-ground restoration activities

E.g., wetland restoration
NRDA Process

**DETERMINE INJURY:**
What was injured, extent, magnitude?

**RESTORATION PLANNING:**
What needs to be done to restore the natural resources?

**RESTORATION COST:**
How much will this cost?

**ASSESS MONETARY DAMAGES:**
Seek monetary damages from the polluter to pay for restoration.
Deepwater Horizon Settlement

15+ years, up to $8.8 billion

- $1 billion already committed for early restoration
- $7.1 billion to complete restoration over 15+ years
- Up to an additional $700 million for adaptive management and unknown conditions
Deepwater Horizon Settlement

Florida Allocation of Restoration Funds by Restoration Goal

- Restore and Conserve Habitat
- Restore Water Quality
- Replenish and Protect Living Coastal and Marine Resources
- Provide and Enhance Recreational Opportunities
- Monitoring, Adaptive Management, Administrative Oversight

- $335 million
- $184 million
- $93 million
- $30 million
- $38 million

State and Federal Members

- U.S. Department of the Interior (DOI)
- U.S. Environmental Protection Agency (EPA)
- National Oceanographic and Atmospheric Administration (NOAA)
- U.S. Department of Agriculture (USDA)
- Florida Department of Environmental Protection (DEP)
- Florida Fish and Wildlife Conservation Commission (FWC)
Florida Coastal Access Project

- Selected as part of Phase V Early Restoration to partially compensate for recreational use losses in Florida
- Restoration projects in the first and second phases of the Florida Coastal Access Project have been selected via the Phase V and Phase V.2 plans
- Current draft plan describes the proposed third phase of the project
Florida Coastal Access Project

- Approximately $45.4M allocated for land acquisition/improvements for lost recreation
- Trust for Public Land (TPL) acquires property
- With FL TIG oversight, TPL oversees acquisition (and infrastructure design and construction if applicable)
- TPL donates property to relevant city/county agencies for operation as public parks, with appropriate deed restrictions
Florida Coastal Access Project

- Innerarity Point Park
- Proposed action: Navarre Beach Marine Park Addition
- Captain Leonard Destin Park
- Lynn Haven Bayou Park and Preserve
- Island View Park
- Salinas Park Addition

Phase V.3 Preferred Alternative

Navarre Beach Marine Park Addition
acquisition of coastal parcel, a private inholding within Navarre Beach Marine Park.
Next Steps

- Public comment period ends July 22
- Trustees then:
  - Consider all public comments
  - Address public comments & finalize plan
  - Implement any selected project(s)
Florida Department of Environmental Protection
• Phil Coram

Florida Fish and Wildlife Conservation Commission
• Gareth Leonard

Department of the Interior
• Dianne Ingram

US Environmental Protection Agency
• Amy Newbold
